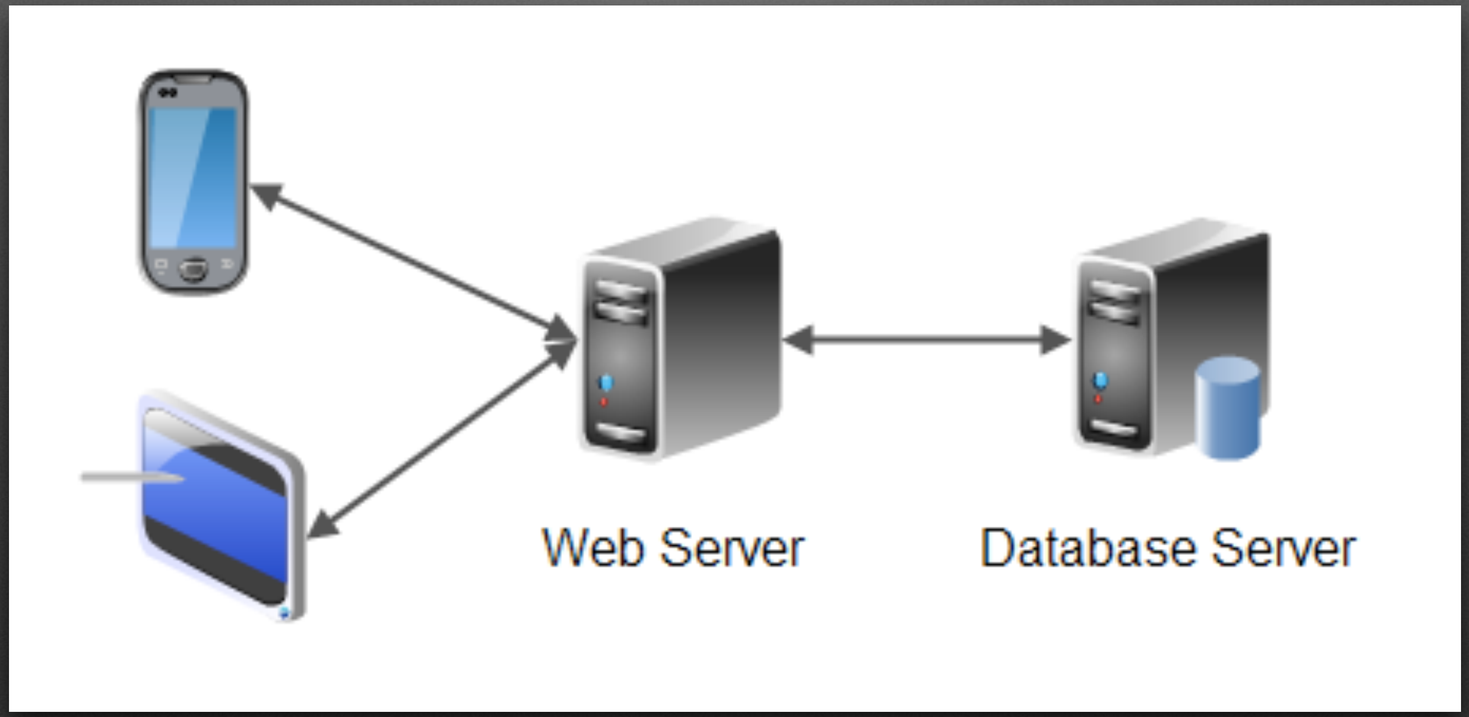
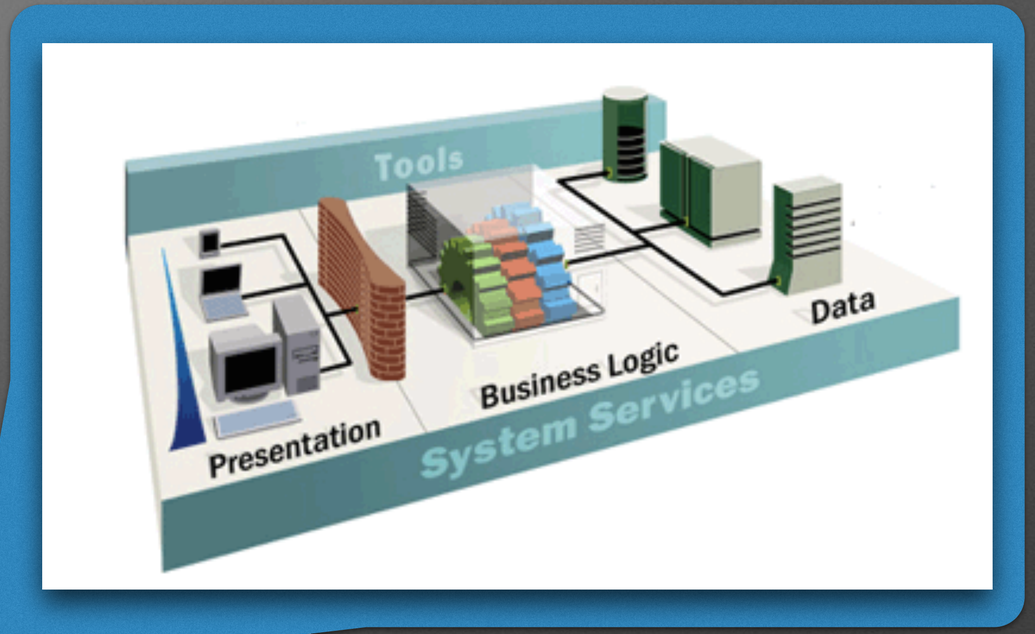
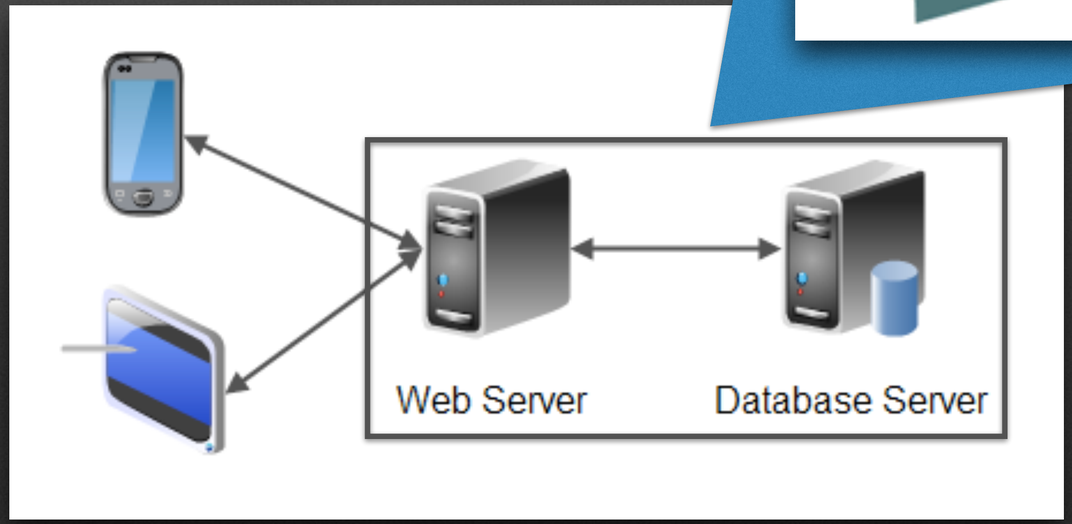
A Typical Web Service Architecture



A Typical Web Service Architecture





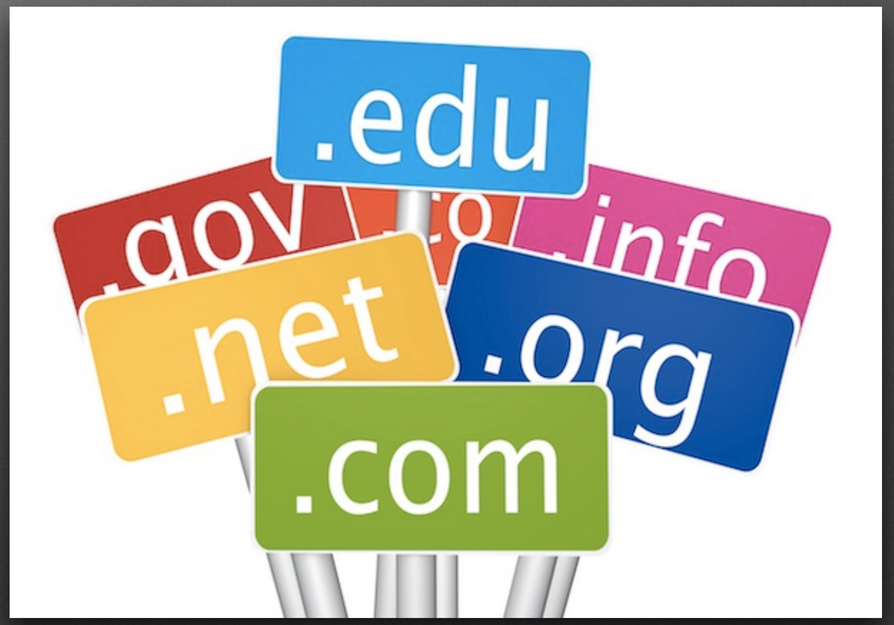
TODO 1: Register an AWS Account

- Each team should have one account
- You need a credit card
- It’s free
- But it may cost you $1 ;-)

http://aws.amazon.com/

TODO 2: Buy a Domain Name

- Just buy a cheap name
- Not required
- But highly recommended!



https://instantdomainsearch.com/

TODO 3: Prepare the Scrum on Monday

- Every team reports the progress
    1. What have been done
    2. What are the problems
    3. What is the plan
- One member does it for the team
